Respublika!

Respublika! is a one-week [community media](#) arts festival which will take place in Cyprus. This multi-sited and multi-genre community media arts festival aims to tap into the creative reservoirs of community media organisations and their producers; their artists and collectives; and their community, social-oriented, cultural and artistic projects. The project will support so-called community media affiliated artists (CMAAs) to use an artistic language in order to: 1/communicate their perspectives on media democracy and its participatory component, and/or 2/ to represent the democratic-participatory nature and identities of community media.

To submit a proposal, please check out the [call for entries](#).
